

Battery Compatibility Statement

After testing and verification, here we are confirming that the corresponding tested GoodWe inverters are compatible with Hyperion Lithium Ion Energy Storage
 Include inverter and battery models as:

GoodWe Inverter models:

ET Plus Series

Battery models:

BMZ Hyperion (Art. Nr. 616038) with 4, 5 or 6 pcs Helios Battery Model (Art. Nr. 612033)

The compatibility is based on inverter and battery BMS firmware version from:

Inverter ARM firmware version: V20 or higher version

Battery control unit firmware version: 0.4.15 or higher version

And the detailed compatibility as: ("√" means compatible, the others means incompatible)

● For LV (48V) Batteries

Battery Model					
ESA series					
EM Series					
S-BP Series					
ES Series					

● For HV Batteries

Battery Model	10kWh (4x Helios VE)	12.5kWh (5x Helios VE)	15kWh (6x Helios VE)		
ET series	√	√	√		
EH Series					
BT Series					
BH Series					
A-ES Series					

Notes :

ET Plus version (with 12V enable signal) is required to start-up the Hyperion by the GoodWe inverter.
